Dear David and Warren,

Please see the attached Injection Well Operation Procedures Memo Revision 1. Sandia Technologies and it's subcontractors are scheduled to be on-site tomorrow (7/22/15) to perform a MIT on WDW-73. Pending a satisfactory MIT and no issues with the surface equipment, the Injection Falloff Testing will begin this Thursday (7/23/15). Should you have any questions or need additional information please let me know.

Kindest Regards,

Brian Moore
